Sports Facility Management System

ARENA
Sports Facility Management System

ABOUT ARENA

ARENA is a sports facility management system that is fully integrated and developed to manage everyday tasks. It includes all the required features to simplify the interactions between management and clients. From member billing, class schedules, trainer registrations, to court rentals; our system will help gyms, fitness centers, and sports clubs take their business to new heights of performance and capability.
Why Arena?

ALL-IN-ONE Software	Enhanced Efficiency	Integration with Accounting, Electronic Gates, and Other Systems	Easy To Use	Process Automation	Enhanced Business Performance

GYM SYSTEM

Member Management

The membership management module of ARENA enables to track and manage all the membership activities of the clients. ARENA is fully automated to save time and eliminate repetitive tasks.
Users are able to:

- Manage profiles, contracts, and packages (photos, status, payments, installments, and renewals/auto-renewals, customize packages for clients)
- Track active members
- Create new memberships
- Collect membership dues
- Allow membership transfers
- Freeze/Unfreeze
- Integrate the client profile with any access control (Use photo-ID, key tag or biometrics for member check-in.)

Locker Management

The locker management module allows to manage and track the lockers' rentals and availabilities.

Private Trainers (PT)

The private trainers module allows users to manage the trainers' profiles (demographics, classes, cost per session...), set packages and offers for private sessions, define classes, plan costs, and track the customer's sessions through the calendar.

Classes Management

Users are able to assign coaches, set the classes' schedules, reserve seats for clients in classes, and track the classes' attendees.
Dashboards

A customizable dashboard based on business KPIs includes the most used features of the fitness center.

Reporting

The gym system generates reports such as:

- Cash Drawers
- Sales Reports
- Members Reports
- PT Sessions Reports
- Entry Logs of Members
- Attendance Analysis Reports
- Staff Payroll Reports
- Class Attendance Reports

AREA RESERVATION SYSTEM

Areas

The area reservation system allows users to check the available areas (courts, studios, pools ...) and assign the activities that can be held in each area. This system is fully integrated with the gym system and the academy system to help users avoid reservation mistakes.

Calendar Reseravation

Users are able to:

- $ Set Payments
- Issue Invoices
- Issue Permission Slips
- Manage Recurrent Reservations

Contracts

The system is able to manage contracts between the clients and the fitness centers concerning the reservation packages.

Reporting

The area reservation system generates reports such as:

- Sales Reports
- Reservation Reports

ACADEMY SYSTEM

Member Profile

The member profile section allows users to manage members' profiles by creating new profiles or accessing existing profiles.

Coaches

Users can create coaches' profiles and manage the personal information, costs per sessions, coaches' schedules, and issue the overall report for each coach.

Classes

This module enables users to manage classes by setting their areas or courts, schedule and trainers.

The module is fully integrated with the area registration system to prevent multiple reservations conflicts.

Camps

The camps module enables users to create and edit the camps held in the centers by setting the programs, the offers and services, the cost and the age group.

Attendance Management

At any time, coaches can track the attendance of all their classes from any device (tablets, smartphones...).

Reporting

The academy system generates reports such as:

- Members Reports
- Class Attendance Reports
- Sales Reports
