

IDS

Company Profile

INTEGRATED DIGITAL
SYSTEMS

About Us

IDS is a software solutions provider established in 1991, delivering full-cycle software development services and software products.

With a team of more than a hundred, the majority of which is technical, IDS excels in providing turnkey solutions in Information Technology to a diversified range of industries on an international scale.

Today, IDS positions itself as a key regional player in software development in the MENA region with more than a thousand successfully completed projects.

Our areas of focus are: Enterprise Resource Planning (ERP) Solutions, Information Management Systems, Data Management, Electronic Document Management Systems, Business Process Management, Web Design & Development, Web Branding & Design, Mobile Apps, E-commerce, and E-government Solutions.

Sister Companies

IDS Fintech

Specialized in Asset & Wealth Management Platforms, Stock Market Solutions and Private Banking solutions.

Vanrise Solutions

Specialized in the Telecom Domain and providing OSS/BSS and Fraud Detection solutions.

SoftHub

A UAE-based company acting as an Operational and Business Development Hub for Operations across the GCC, with key focus on Telcom, FinTech, and Cross-Vertical Industries.

History & Background

Since its establishment in 1991, IDS has been on a mission to provide innovative ICT solutions for various types of enterprises. Company founders, Sami Slim and Jamal Anouti, developed the core of “Libra Financials” which turned into a full-fledged ERP solution in 1999.

In 1998, IDS entered the telecommunication domain which led to the establishment of **Vanrise Solutions** in 2006. During the same period, our exposure to the capital markets and the introduction of newly developed products in portfolio management and online trading formed the basis for the establishment of our second spinoff IDS Fintech in 2021. **IDS Fintech** is a pioneer regional player in Wealth Management.

In 2007, IDS was properly positioned to participate and win local and international bids. Since then, IDS was able to win numerous bids with governmental, public, private, and NGO entities, allowing the company to build a wide portfolio of products and solutions across a broad spectrum of industries.

Currently, IDS actively participates in international bids and provides bespoke Windows, web & mobile solutions and develops, delivers, and implements ERP, Document Management, Process Management, Workflow, Web Portal, and e-Commerce solutions.

For over 30 years, IDS has built strong alliances with both clients and partners. Our full dedication to our clients, our relentless pledge to the use of advanced and latest technologies, our commitment to the highest standards in quality management, and our high ethics have helped us maintain an impeccable reputation in the market. Our very high customer retention rate is an indicator of our good relationships with our customers.

Our Vision

Our vision is to create world-class software solutions and become one of the leading software solution providers in the MENA region.

Our Mission

Our mission is to give customers the most compelling and reliable software experience. We focus on building a passionate and diverse team who stays committed to excellence in designing and developing IT solutions.

Our Core Values

Integrity

Integrity is at the core of our values and the basis of a long-lasting relationship with customers and partners. We behave in a manner that demonstrates trust, transparency, consistency and responsibility.

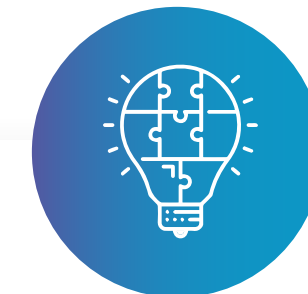

Customer Focus

Our customer focus constantly drives us to deliver work of the highest standard and ensure great customer experience. We are committed to listening to customers and understanding their needs.

Quality

We care deeply about providing high quality products and services that ensure customer satisfaction, profitability and growth.

Innovation

We foster a work environment where creative thinking is encouraged and rewarded. Our purpose is to efficiently deliver smart solutions, enabling our clients to grow and prosper.

Our Competitive Edge

Proficiency

Over 30 years of cumulative experience in the software development field with a seasoned team of professionals have given us the capabilities needed to tackle highly complex projects.

Continuous Improvement

We unceasingly develop and improve our solutions and services to cater to the ever-changing market needs and technology trends and take on new ventures which enforce our growth vision.

Reliability

IDS applies International Standards in developing and delivering software. We believe in building and maintaining long-term relationships with all our customers who in turn are very loyal to us.

Diversity

We offer ready-made and bespoke software development solutions and participate in software development projects of any scale, complexity, and type.

Industries

We established a solid know-how across a wide spectrum of SMEs, large enterprises, governmental and non-governmental organizations, UN Agencies and enormous industries; some of which are:

Purpose Driven Culture

We work with a purpose, and that purpose is to meet our customers' expectations. We do this by providing high quality products and services and investing in the development of our team members, processes, techniques, and infrastructure; ensuring that the members are doing what they do in an excellent environment where all the needs are met to complete work and to assist customers.

Social Responsibility:

IDS understands that it is part of the global community and demonstrates its commitment to social and environmental responsibilities. The company has well implemented policies that ensure the following:

Commitment to sustainability

Women Empowerment

Creating opportunities

True cloud computing service

Commitment to Sustainability

At IDS, we acknowledge our responsibility to raise awareness and understanding of environmental sustainability amongst our staff to apply sustainability into practice in the workplace, learning environment and broader community.

We educate and encourage employees to participate in the company's sustainability initiatives.

The company monitors energy consumption and encourages employees to reduce energy consumption.

The company undergoes regular water quality assessments to verify that no harmful pollutants are discharged into waterways.

The company offices are "No-Smoking" areas. The only designated smoking area in the company is the outdoor space; which is to be accessed during breaks.

The company undergoes air quality assessments inside the offices to verify that no harmful pollutants are present in the atmosphere.

We practice regular recycling and waste reduction.

We prohibit the use of single-use plastic bottles.

We reduce the use of paper by promoting a paperless “no-printing” environment.

During a pandemic, resources operate remotely. The company provides all necessary tools for an efficient remote operation and production.

During a pandemic, and under a partial lockdown, resources are present in the company on alternating days and social distancing is practiced.

The company promotes “Green” meetings where material is shared electronically, and travel is reduced.

The company does not recruit people involved in any litigation or lawsuit that has a negative impact on the environment. Actually, the company does not recruit people involved in any litigation.

IDS is an active member of the UN Global Compact in Lebanon and IDS supports the **Ten Principles of the United Nations Global Compact (UNGC)** on labor, human rights, environment, and anti-corruption.

Women Empowerment

At IDS, women hold major decision-making positions. We highly appreciate the participation of women in the decision-making processes.

IDS has established and implemented a policy to support women empowerment and reduce gender gaps. The policy affirms the critical role women play in accelerating progress in development and advancement of the company.

30% of our employees are women and we are seeking to increase the number of women in different sectors.

Creating Opportunities

We invest in pathways to opportunity through education, training and employment; hiring veterans and opportunity youth, and helping them build their futures once they are with us.

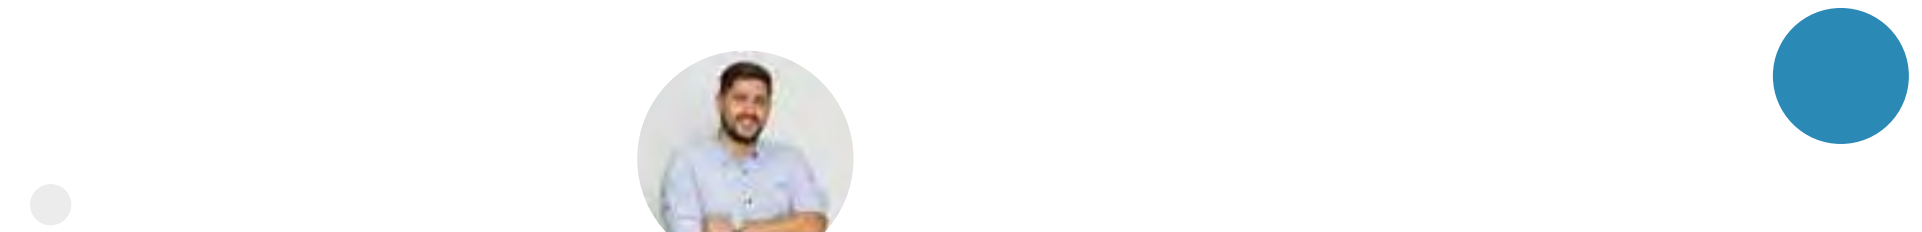

We also communicate knowledge through training, documentation, and cooperation between employees at all levels.

We provide Internship programs:

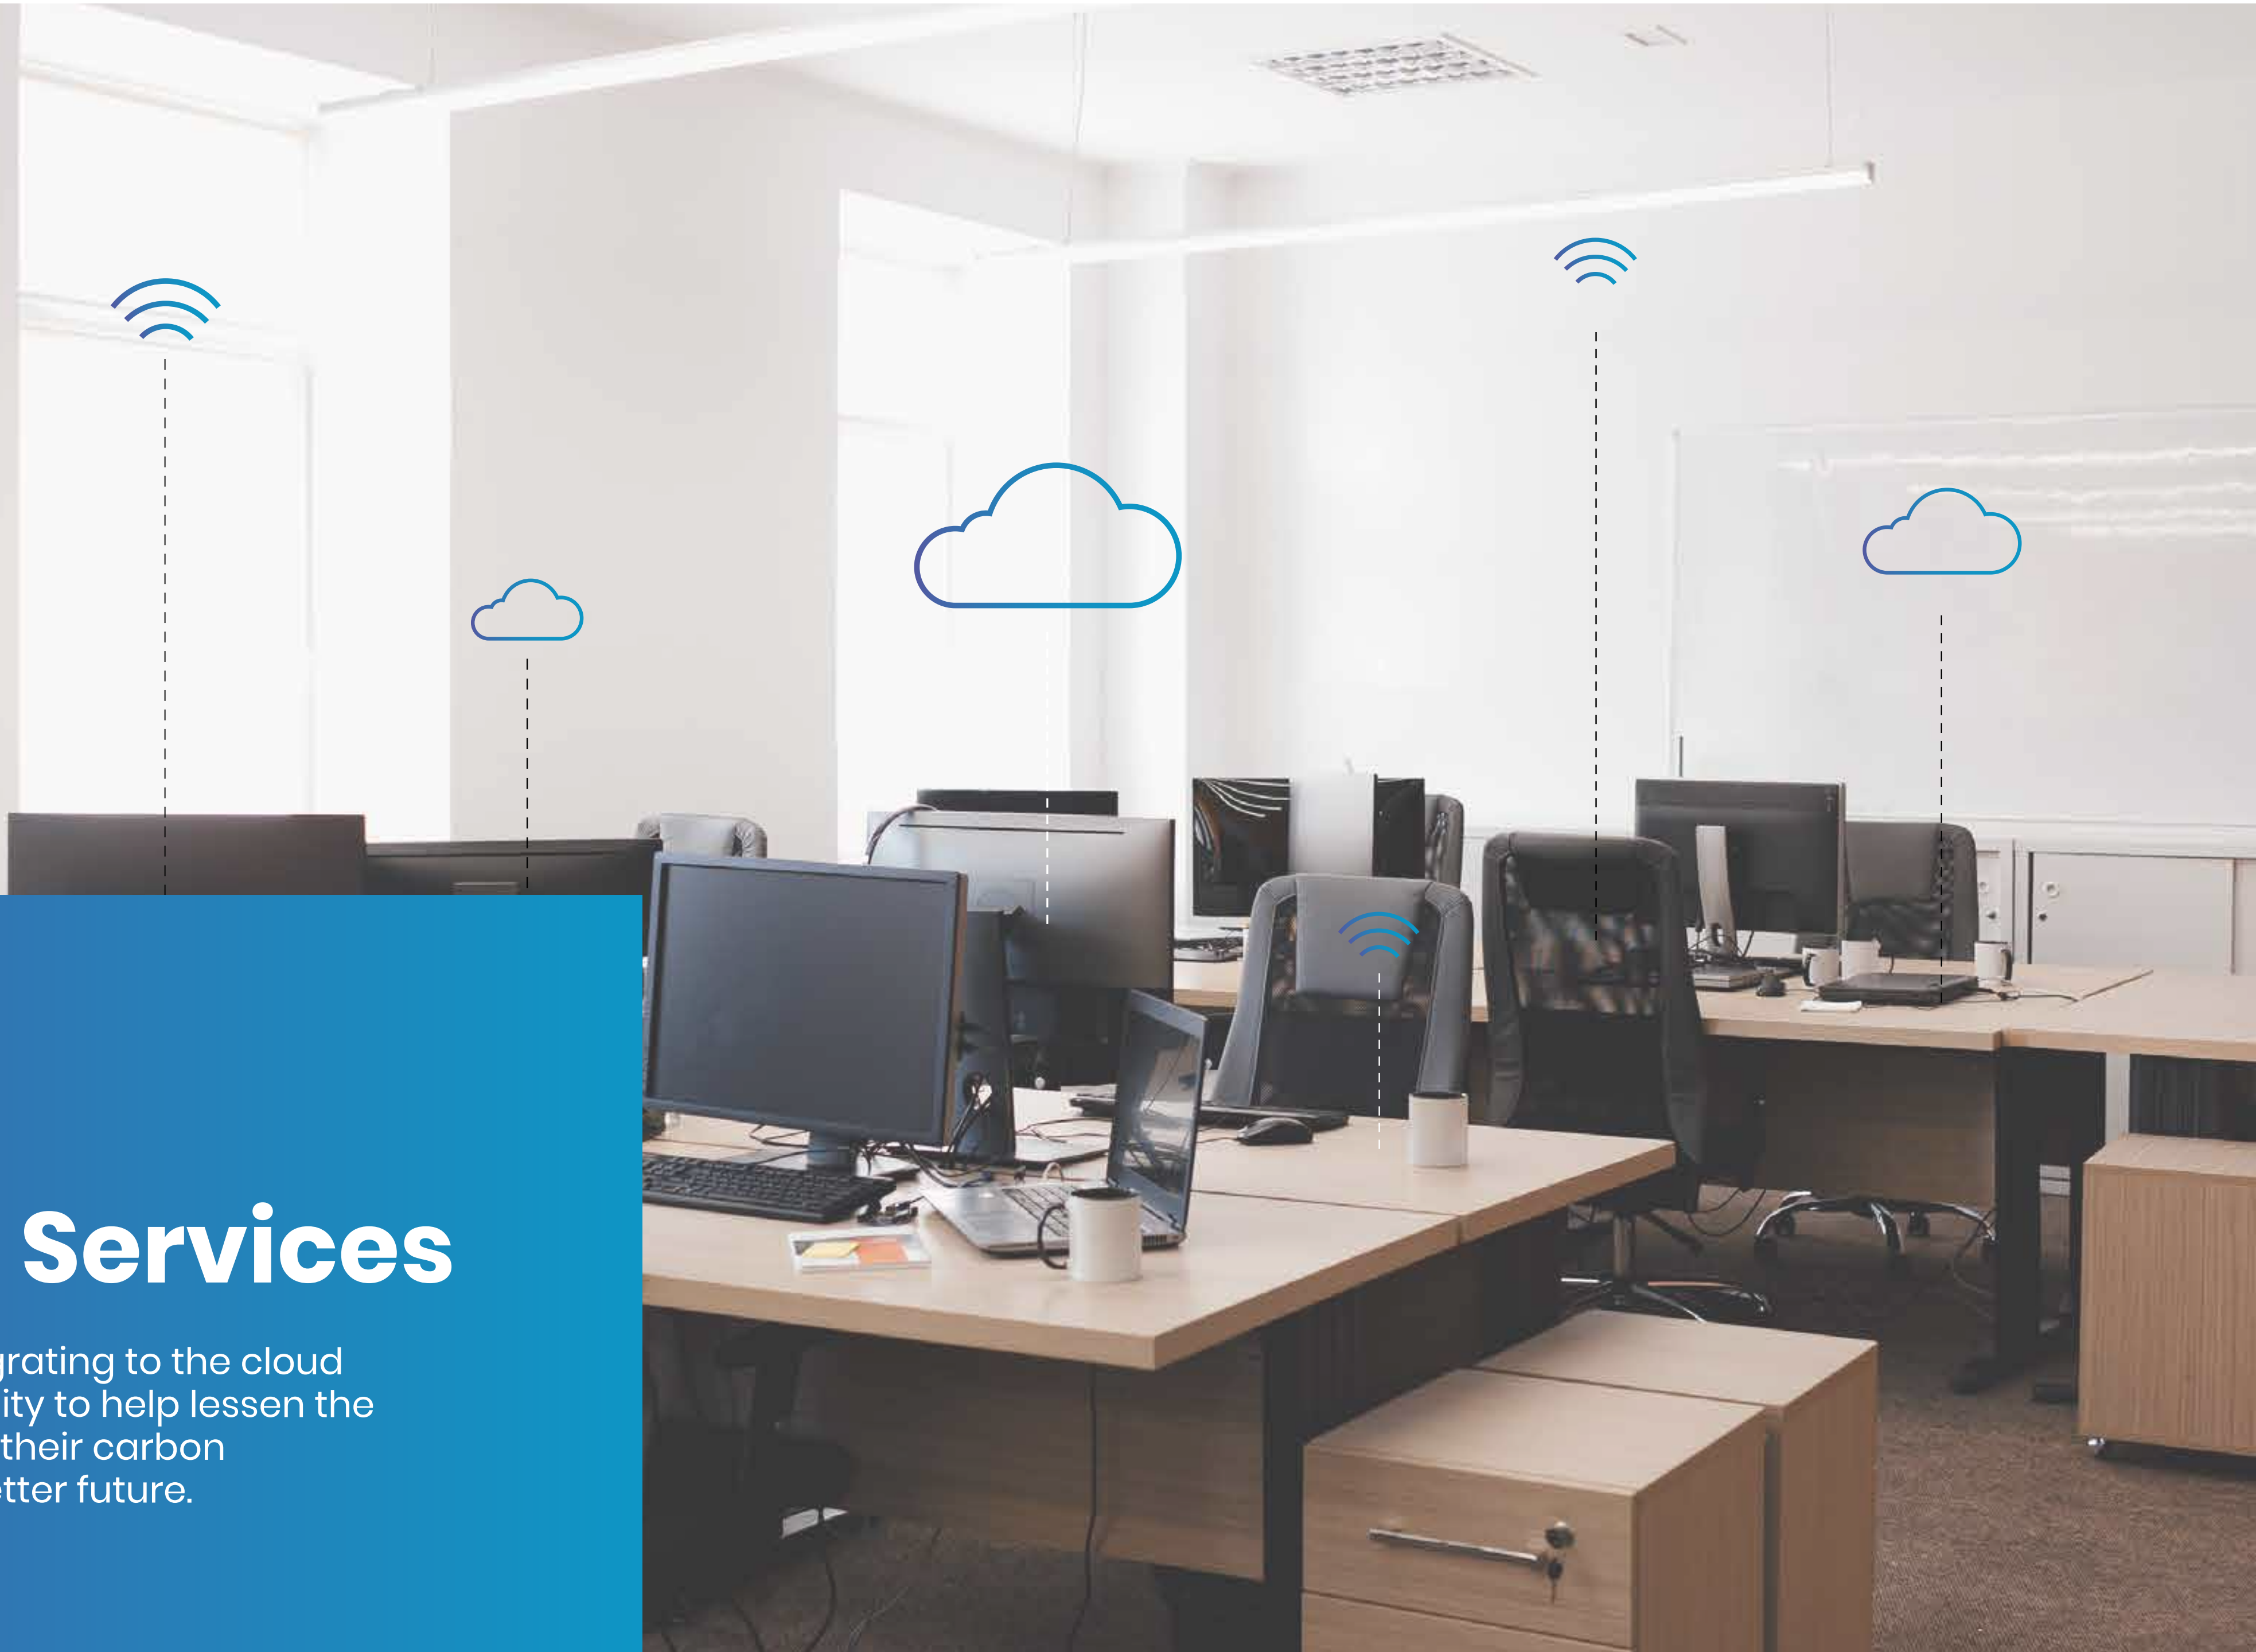

- 
- ✓ Through MOUs with different universities
 - ✓ For students from different specialties (CS, CCE, MIS...)

We assist and train students on their final year projects. Our trainings are based on live projects and we ensure students get practical knowledge on the working and technical details of the projects.

True Cloud Computing Services

At IDS, we are aware that by migrating to the cloud computing, we will have the ability to help lessen the consumption of energy, reduce their carbon footprint and move toward a better future.

Client Testimonials

Hassan Alaeddine, Financial and Operational Manager, Yoras International

“I always recommend IDS company, and LIBRA in particular, to my acquaintances because, after 10 years of experience, the result remained awesome and the treatment remained excellent.”

Hussein Zeineddine, CFA and Senior Vice President of Kuwait Financial Centre “Markaz”, Kuwait

“In a market with a multitude of investment options and changing regulatory environments, finding a Wealth Management System that caters to our niche requirements was very difficult. After exploring a range of international solutions, we found your system as the only system capable of answering to all the challenges that we, as an Investment Company, face nowadays.”

Ministry of Interior and UNDP- Iraq

“We can describe our experience with IDS as very good, they have the required ability to deliver the service on time and they are eager to share their technical advice when necessary, and they have the flexibility to deal with the changes of our requests. The most satisfying aspect is their customer service and their availability to offer the required support that reflects positively on the quality of delivered service.”

AGVISOR Team

“We had a great experience with IDS for the implementation of AGVISOR. The most satisfying aspects were the customer service, availability and pricing.”
